

Fan Speed Control FSC

Description

The FSC, Fan Speed Control, controls the speed of single-phased RS, RSV, GSV, BESF, RSIF and BESB fans and ventilators. The FSC is specifically designed to allow a user to vary the speed of split-capacitor motors. The control works by reducing the line voltage to the motor, allowing the fan to use only the energy required to maintain the desired volume of air flow (fan speed).

Warranty

2-year factory warranty

Specifications

Model	EXH1126-5	EXH1126-8
Maximum Load	5 Amps	8 Amps
Voltage	1 x 120 V AC, 60 Hz	
Switch	Rotary ON/OFF Silver alloy contacts	
Use with:	All fans, except:	RSV 016
	RSV 016	RSV 315
	RSV 315	GSV 016
	GSV 016	GSV 315
	GSV 315	

NOTE: The RSV and GSV 400 and 450 operate with 3-phase voltage and cannot be controlled with this kind of fan speed control.
