

Grease Collector Box **GCB**

Description

The GCB, Grease Collector Box, is used to collect grease and water from the Model GSV, Grease Fan. The GCB is designed to mount on the side of a roof curb and secured by sheet metal screws. The 1" drain tube is screwed into the drain hole in the bottom, left side of the fan (seen from the front), and points down toward the hole in the Grease Collector Box.

An optional Grease Pillow is also available. The Grease Pillow is filled with a fire-proof absorbent material which absorbs and captures grease residue. Once captured, the grease is locked in and will not leak out onto the roof, regardless of rain or snow.

The EXH 3028 Grease Pillow is recommended.
(SOLD SEPARATELY)

Material

The Grease Collector Box is made of 18 GA Galvanized steel. The drain tube is 1" PVC pipe.

Dimensions

W x H x L: 4.5" x 5" x 16"
